Changes to Site Plan/Survey Documents

Effective 08/08/2022 all new permits which previously required a "Site Plan/Survey" will now require the following:

- **Site/Plot Plan** - Illustrates proposed structure and property set backs.
- **Boundary Survey** - Unaltered Survey

This change does not introduce any new forms or documents in the submittal process. Previously both a "Site Plan" and "Boundary Survey" were required, but they were both being uploaded under "Site Plan/Survey". This change will lead to a more efficient submittal and review process.
